Click the cool little icons and it'll take you right to my page

Small business grants are non-repayable funds provided by governments, private organizations, and foundations to support the growth and development of small businesses.

These grants are typically awarded to businesses that are owned by women, minorities, veterans, or people with disabilities, among other disadvantaged groups.

Small business grants come with many benefits, including providing a financial boost, enhancing a business's credibility, and helping business owners access additional resources and networks

Depending on when you purchased this guide, some of these grants may no longer be accepting applications... BUT guess what!

I want to make sure you NEVER have to pay for this type of info again!

So, just in case you don't qualify for some of these grants

Or just in case you missed the deadline

Here are links where you can access tons of other grants as well :-)
